Splošna načela izvedbe predmeta

General principles of the subject

- Seminaraska naloga obravnava nek specifični informacijski sistem.
 - ki še ne obstaja in bi rešil informacijski problem, ali
 - ki že obstaja, vendar bi ga bilo vredno izboljšati.
 - Seminaraska naloga naj informacijski sistem obravnava celovito:
 - S stališča storitev uporabnikom.
 - Z implementacijskega stališča (predlog zgradbe sistema).
 - Cilj seminarske naloge je izdelati načrt sistema.
- A seminar task deals with a specific information system.
 - which does not exist and would solve the information problem, or
 - which already exists, but it would be worthwhile to improve it.
 - The seminar task should be addressed comprehensively:
 - From the point of view of services to users.
 - From the implementation point of view (system building proposal).
 - The aim of the seminar is to design the information system.
